# RIG INTERCOM

## Wireless System

Virgin Technologies' Wireless Rig Intercom System makes on-site communications easy. The system uses the latest advancements in VoIP technology coupled with a traditional intercom system. Communicate from shack to shack, rig to shack or receive and place telephone calls without the need for cellular telephones or expensive booster equipment.

## Modern Wireless Rig Intercom System With VoIP Services

### FEATURES & BENEFITS

#### DOGHOUSE PHONE CALLS

- NEW! Receive incoming telephone calls and place outgoing telephone calls from your doghouse Class 1 Div 2 phone.
