## Phone & Fax Service

## Internet Phone and Fax Service

### ABOUT VOICE OVER IP (VoIP)

No cellular coverage or landlines, no problem! VoIP Internet phone and fax service is now suitable and reliable enough for everyday business use - even in the most remote areas of Canada.

It's simple and convenient. You use your new or existing high speed Internet connection to make phone calls and send faxes. There are no phone lines or cellu-

lar service restrictions. Your VoIP phone can go anywhere you are with a local area code, full voicemail features, and unlimited free long distance calling anywhere in North America. For multiple users or an office environment, you can have a full virtual PBX system with an auto attendant.

Not only is VoIP cost-effective, saving you hundreds or thou-

sands of dollars per year, but it is available virtually anywhere in Canada, no matter how remote.

### VoIP TELEPHONE AND FAX SERVICE

Virgin Technologies' VoIP telephone and fax service has superior sound quality and is one of

the best available. The service is optimized for use over our satellite network from even the most remote areas of Canada.

instructions programmed into it so you can have it up and running within an hour.

*LinkSys VoIP Telephone*

Our system comes with several security features already built in, such as a firewall and VPN, to protect your communications.

It also simple to install. The system comes with self-installation

Most importantly, our VoIP telephone and fax service is fully featured and includes:

Local Area Code, Voicemail, Caller ID, Call Waiting, Call Return, and Unlimited Toll Free Calling in North America

### VoIP PBX SERVICE

Virgin Technologies VoIP PBX Service offers you everything a traditional phone service offers and more. This robust system offers traditional PBX switchboard features such as voicemail, 3-way conferencing, call waiting, call statistics, and receptionist features. It also includes a web interface for checking calls and voicemail, and a firewall and Virtual Private Network (VPN) to protect your communications.

### SUPPORT

We provide 24/7 technical support, extended warranties on hardware, as well as same day/next day on-site service to our business customers.
